

ANGA COM 2024: Already 350 Exhibitor Registrations; Record Participation of FTTH Operators

- Already 350 registered exhibitors – including more than 70 newcomers
- Over 80% of the exhibition space of the record year 2023 already booked
- Record participation of FTTH operators
- First round of exhibitor registrations closes on 19 January 2024
- Next ANGA COM with a perfect date in early summer: 14 to 16 May 2024 in Cologne, Germany

Cologne/Germany, 12 December 2023 | The fiber optic boom at ANGA COM in Cologne goes on: Five months before the start, **registrations for 2024 have already been received from over 350 exhibitors**. It is particularly encouraging that this already includes more than 70 new exhibitors who did not participate in 2023.

The bookings already amount to more than **80% of the exhibition space of the record year 2023 with amazing 25,000 gross square meters**. Exhibitors who wish to be considered in the first round of hall planning should register via the website (www.angacom.de) **by 19 January**.

In addition to the vendors of telecommunications and media technology, the **operators of fiber optic networks themselves will be represented more strongly than ever** next year. Deutsche GigaNetz, OXG Glasfaser and Vodafone top the list with more than 70 square meters each. Other network operators with their own stand space include: Deutsche Glasfaser, DNS:NET, envia TEL, EWE TEL, GasLINE, metrofibre, Netcom BW, NGN Fiber Network, Plusnet, PYUR, UGG Unsere Grüne Glasfaser and VX Fiber.

Dr. Peter Charissé, CEO ANGA COM: "We are fully on track for 2024. The broadband and fiber optic industry remains a stroke of luck. We are particularly pleased about the **fantastic inflow of new exhibitors** and the **further significant increase in participation of the network operators** themselves. This clearly shows how important Cologne is for them as a marketplace, both for their vendors and with regard to the municipalities, media and regulation. The Cologne area is and remains the heart of the telecommunications industry; nowhere else in Germany and Europe do so many market leaders have such short distances to travel."

Next year, Europe's leading Exhibition and Conference for Broadband, Television & Online will take place in Cologne/Germany from **14 to 16 May 2024**. With **470 exhibitors** and **22,000 participants from 80 countries**, ANGA COM 2023 showed strong growth in May. The exhibition space was increased by 30% compared to the previous year. In terms of participants, a plus of 20% was achieved compared to 2022.

Further information about ANGA COM as well as numerous **statements of leading representatives from the fiber optics, broadband and media industry** can be found in the [fact sheet](#). For a comprehensive review, photos and videos are available on the [website](#). Sponsoring and advertising can also be booked on the [website](#).

ANGA COM is Europe's leading Exhibition and Conference for Broadband, Television & Online. It brings together network operators, vendors and content providers on all issues of the broadband and media distribution. The last ANGA COM counted 470 exhibitors from 35 countries and 22,000 participants from more than 80 countries. Amongst the participants were 520 network and platform operators serving more than 200 million households all over Europe, as well as 250 media companies. 41 percent of the participants belonged to the senior management. The next show date is 14 to 16 May 2024 in Cologne / Germany.
